602 / 13-19 ATCHISON STREET, ST. LEONARDS NEW 2065 SYDNEY AUSTRALIA

Micro Modal is the new wonder fabric and is made from beech wood cellulose. It is very soft, smooth and silky.

It is stretchable, cooler in warm temperature, and long lasting with care. The fabric ensures a body conscious fit and an elegant look and feel to any garment made. Hence, Micro modal is the perfect choice for fashion, especially for women who love simple and elegant designs.

Micro Modal textiles are exceptionally light in structure.

To put into perspective, ten thousand metres of this textile will weigh only one single gram. The low fibre stiffness also makes it a wonderfully natural softening agent.

Even after repeated washing, fabrics made with Micro Modal remain absorbent, soft and supple just like brand new. As with any natural product, you want to wash and dry on low heat, preferably washing in cold water and use a gentle detergent.

You will love Mossée's exclusive Micro Modal so much and you won't want to take it off.

Ideally for casual, work and travel.

Travel in style and in comfort with Mossée
